Personalized memorials tell a story...

On these pages, we have provided just a few examples of how unique shapes, images, and inscriptions can be used to personalize your memorial.

Since 1936, we have had the great honor of helping more than 28,000 families tell their stories and preserve their memories for generations to come with personalized memorials.

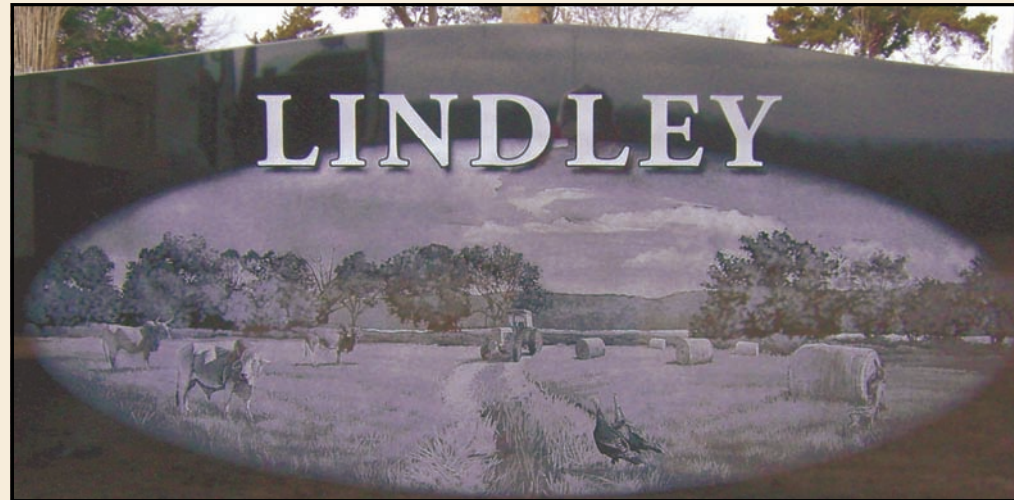

For a personal touch, you may add a photo or symbolic emblem.

Above, we added a photo and trooper's badge.

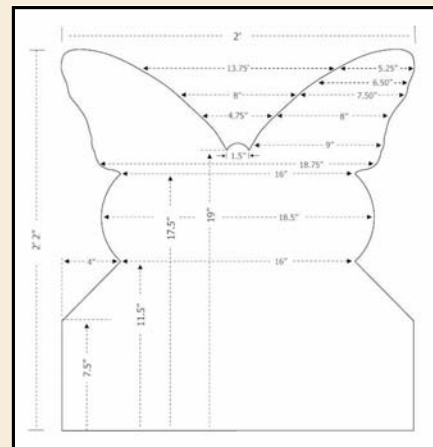

At right, we carved these flip-flops for someone who always wore them.

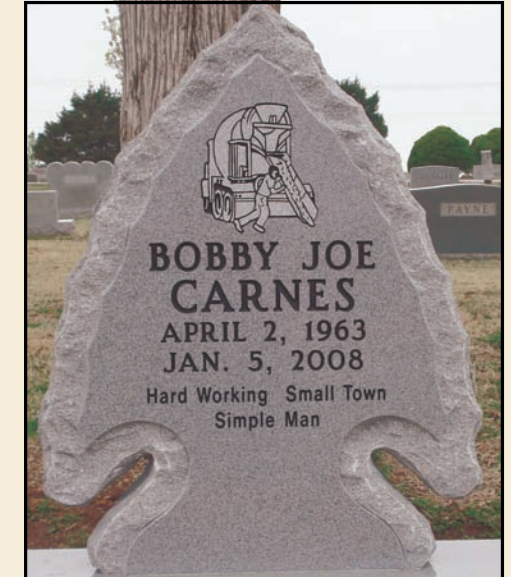

You can personalize your monument with a laser etched scene like this one we created from a compilation of favorite family photos.

We can assist you in creating a unique shape for your monument like this butterfly shaped monument we designed from a photograph.

We can digitize images like this company logo we copied from a man's hat.

For an artistic statement, you can add a bronze appliqué.
